

Let's Go Green...

AEP River Operations
Captain Mark Murphy,
Gulf Project Manager

“**AEP River Operations** celebrated its one year recycling anniversary. We are the first inland towing company to recycle on this scale and with the help of The Recycling Foundation have successfully changed our on-board practices. Recycling keeps waste from the landfill and instead becomes a resource. In addition, our operation costs have been reduced by over 60%. Our recycling effort is named ‘See Green’ and has earned awards for our green initiatives. We collect from 20 vessels and recycle all plastic, magazines, newspaper, tin cans, cardboard, aluminum and office paper. Single-stream recycling, where separation is handled by The Recycling Foundation at their site, is the best kept secret and this technological advance will become an industry-changing event. We are very proud of our relationship with Tammy and The Recycling Foundation.”
