

Let's Go Green...

Baton Rouge Metropolitan Airport
Anthony Marino

“ At Baton Rouge Metropolitan Airport, we established a recycling goal, which is also an aviation industry trend nationwide. We currently recycle office paper site-wide, including administration, all airlines, car rentals and terminal tenants. Our year-end goal is to add plastics and aluminum to our recycling plan and have initiated a pilot program in administration and with URS, our project manager. We've educated employees on the importance of waste separation via our newsletter, training programs and new employee orientation. We are pleased with participation and the acceptance and growth of this program. It is deemed a success! ”
