

Let's Go Green...

Kleinpeter Dairy
Jeff Kleinpeter

Quality Dairy Products
Since 1913

“**Kleinpeter Farms Dairy** has always searched for new ways to conserve our precious natural resources for future generations. From feeding the waste product of the cotton industry, cotton seed, to dairy cows starting in 1910, to using the manure produced by their cows to fertilize growing crops, to partnering with the Recycling Foundation to promote recycling, we have always sought out innovative ways to leave this world a better place than we have found it.

Recycling cardboard, waste plastic, damaged milk containers, broken empty milk crates, damaged pallets, all of this makes perfect sense.

Why send these items to the landfill at higher per ton fees? It makes perfect sense to recycle these items, at a lower cost to us, and preserve our world for our children's children.

It's simply “the right thing to do”.”
